Maintenance Lean
**Maintenance Lean
Six Sigma**

Autonomous maintenance comes down to five simple steps, dubbed the Five S's by the Japanese. These Five S's are:
Seiri: Storage; Seiton: Order (in the sense of methods, doing things in the proper order)
Seiso: Inspection;
Seiketsu: Cleanliness

Maintenance ...

Lean, however, has its main aim on loss within the entire process.

When your organisation wants to improve regarding the production process, TPM is almost essential. During our Lean Six Sigma Green Belt Training, we will look at an approach such as Lean, but TPM will be mentioned and explained as well.
