Competition Management System | LTA

The waste management sector has undergone significant changes these past years such as the move away from waste landfills, in particular small local ones, and the increased use of incinerators. After a first discussion held in 1999, Competition delegates explored Competition Issues in Waste Management in their meeting in October 2013.

Competition issues in waste management - OECD

As competition shifts toward higher intensity, companies begin to develop new advantages rapidly and attempt to destroy competitors' advantages. This leads to a further escalation of competitions into hypercompetition, at which stage companies actively work to string together a series of temporary moves that undermine competitors in an endless cycle of jockeying for position.

Hypercompetition - MBA Knowledge Base

Management and Competition in the NHS Management and Competition in the NHS 1998-06-01 00:00:00 Professor Ham's slightly breathless style gives the impression that a lot of information has been crammed into this small book. It is concisely set out in plain language and has a simplicity of approach without patronising the reader or being simplistic about the subject.
