When it came to non-gunpowder machine development, the medieval period was one of the most inventive in military history. During this era, the pre-existing military-technological traditions from the ancient worlds were brought together. Three civilisations were primarily responsible for this evolution: the Late-Roman or Byzantine Empire, the Islamic World, and latterly the Mongol 'World ...

### Medieval Siege Weapons (2): Byzantium, the Islamic World ...

At both land and naval battles, the Byzantines used quite a set of siege weapons. Their siege weapons included some Roman based siege weapons and some advanced Medieval siege weapons. Part of Byzantine siege weapons that were Roman based were was the scorpion, a smaller version of a ballista firing out a series of bolts either with flames or without. The scorpion the Byzantines used was the same as the Roman mounted crossbow, it was used on both land or on ships as its bolts could damage or ...

The first definite use of artillery in the region was against the Ottoman siege of Constantinople in 1396. These loud Byzantine weapons, possibly operated by the Genoese or "Franks" of Galata, forced the Turks to withdraw. The Ottomans had acquired their own cannon by the siege of 1422, using "falcons", which were short but wide cannon. The two ...
