Rack mount bushings are semi-hard shaped pieces of rubber that go between the steering rack and the rack mounts. Their purpose is to isolate the steering rack, and thus your hands, from oad vibrations which could over time cause your hands pain or numbness. Determining their condition requires a multi-step visual inspection.

How to Diagnose and Repair Rack and Pinion Bushings ...

Install the passenger side mount: Place the mounting bushings on the steering rack and insert the bottom bolt first. Once the bottom bolt is securing the steering rack, insert the top bolt. After both bolts are inserted to the mounts, secure the nuts on both bolts, but DO NOT fully tighten them yet.
