What Is Apple Homepod Review

With the Apple HomePod, we're really reviewing two things at once: a premium speaker and a smart home hub. In the former category, the HomePod is excellent, with amazing sound and incredibly...

Apple HomePod review | TechRadar

The Good Apple's \$349 HomePod has excellent bass and consistently superior sound quality across a wide variety of music genres. The speaker is easy to set up and Siri can hear you from across a...

Apple HomePod review: Great sound, but it's trapped in ...

Technically the best-sounding smart speaker, the Apple HomePod is a compact marvel that automatically adjusts its sound based on where you put it. Double-up in a stereo pair and, pound-for-pound,...

Apple HomePod Review | Trusted Reviews

The Apple HomePod basically asks you to trust that it's working (which is a good metaphor for Apple products in general actually). To be fair, more often than not the microphone picks up my voice perfectly fine—but a slight visual cue would be nice.

Apple HomePod review - SoundGuys

Apple HomePod review: Design and Setup Smart speakers aren't going to win any design awards as most brands, including Apple, have gone for a tried-and-tested design. The HomePod looks like a heavyweight and comes with a fabric mesh wrapped all around it. The HomePod weighs around 2.5 kg and is just under 7 inches tall.

Apple HomePod review: No place like Home(Pod) for Apple ...

To start, Apple's HomePod is much larger and heavier than existing smart speakers — it weighs over five pounds. That's almost the same weight as two and a half Amazon Echo Plus speakers or five Google Home speakers. The HomePod's only controls are a touch panel at the top for volume control and to quickly summon Siri.

Apple HomePod review for 2020 | finder.com

Apple's HomePod is the best-sounding wireless smart speaker available, and you can control it by voice using Apple's virtual assistant, Siri. But the HomePod is worth considering only if you're an...

Apple HomePod Review | Reviews by Wirecutter

Give Apple a gold star for the HomePod's design. It's a funky little blob that stands about 7 inches tall—smaller than you'd think having only seen photos. It's covered in an acoustically...

HomePod Review: Only Apple Devotees Need Apply | WIRED

That Apple does things in its own sweet time is no new discovery. But even by its own standards, the company arrived late to the wireless speaker party. But being late is perfectly acceptable if you're the life and soul when you arrive – and that's pretty much the story with the HomePod.

Apple HomePod review | What Hi-Fi?

The Apple HomePod is finally here. We've been anticipating a smart speaker from Apple since Amazon's Echo invented the category in 2014. But naturally, Apple put its own twist on the concept. At...

Apple HomePod Review | For Apple Fans Only | Digital Trends

Apple is very insistent that the \$349 HomePod has been in development for the past six years and that it's entirely focused on sound quality, but it's entering a market where Amazon is advertising...

Apple HomePod review: locked in - The Verge

The new sound of home. HomePod is a breakthrough speaker that adapts to its location and delivers high-fidelity audio wherever it's playing. Together with Apple Music and Siri, it creates an entirely new way for you to discover and interact with music at home.

HomePod - Apple

The HomePod is Apple 's take on the smart speaker. The design is very Apple, so is the entire thinking around the product. It has a stunted cylindrical look and is much smaller than the Echo Studio which it will compete with in the Indian market. The fabric finish is soft and the speaker has a slight cushiony feel when you hold it.

Apple HomePod review: Listen to what you love, the way you ...

The Apple HomePod is the first and only smart speaker from the company that packs in its own Siri smart assistant and some of the best sound quality on any smart speaker. But if you're not an Apple user you might as well stop reading right now. Apple HomePod: What you need to know \$299 price

Apple HomePod Review | Top Ten Reviews

The Apple HomePod is certainly an attractive speaker, with its fabric mesh covering and cylindrical size subtle enough to fit among many decors.

Apple HomePod 2 release date, news, and rumors | TechRadar

In our HomePod review we look at audio quality and how good the HomePod sounds, whether the HomePod is worth the money, and how it compares to the competiton, we also assess whether, months later,...

HomePod Review - Macworld UK

Reviewed Jul 2019 The Apple HomePod has a lot to prove to justify its higher price compared to many rival speakers. Apple has positioned the HomePod speaker as a music player first and foremost, aiming to set it apart from voice assistant-focused rivals such as the Amazon Echo and Google Home.
