Book Review: Why CISOs Fail: The Missing Link in Security Management--and How to Fix It Posted on Nov 17, 2017 by Ben Rothke A recurring complaint of many executives when berating their CISO, is that they've spent exorbitant amounts on information security and often don't have a lot to show for it.

Book Review Why CISOs Fail The Missing Link in Security ...

Why CISOs Fail? - The Missing Link in Security Management-and How to Fix It (Internal Audit and IT Audit) - I wrote this book three times. Once, as a series of notes, thoughts, observations, and ramblings that accumulated over many years. Like many others, I had that rather elusive bucket list item, namely that one day I will write a book, and

Read this chapter from Why CISOs Fail: The Missing Link in Security Management--and How to Fix It and understand why the author likes to call information security the "dismal discipline," and why this perception needs to change. Related Articles. What Is the Role of a CISO? The CISO as the Man-in-the-Middle. The Hybrid (Frugal) CISO.

Information Security: the Dismal Discipline?

Like other enterprise executives, CISOs must defend their budget requests. Year after year the company hears that the CISO demands money for more projects, more products, more staff. We used to justify these requests by talking about defense in depth—the notion that a single layer will eventually fail, so we must deploy multiple layers.

Life as a CISO: How do CISOs make sense of all the ...

Why CISOs Fail: The Missing Link in Security Management--and How to Fix It provides insight as to why and how current security management practices fail at their basic foundation, resulting in overall dissatisfaction by practitioners and lack of success in the corporate environment. Barak Engel examines the reasons and how to fix them.

Information Security Today: September 2017

REQUEST A DEMO. Missing the Forest for the Trees: Top 5 CISO Pitfalls in Cybersecurity. June 20, 2019 |Aaron Pritz. There is a lack of focus in cyber security. This rarely stems from lack of hard work, desire, technical ability or aspiration. Many cybersecurity leaders and teams voice concern around lack of funding, minimal executive support and share all too common stories of burnout at all levels of the organization (including the CISO).
